Deck built by Rolling Ridge Deck Company, Evergreen, Colorado.

Only EverGrain® is compression molded for deep grain beauty.

Nothing enhances the enjoyment of outdoor living quite like EverGrain® Composite Decking. It's made with an exclusive compression molding process that creates deep grain beauty[1] in a strong board with outstanding durability and consistency. EverGrain Decking requires no staining or painting and is available in seven beautiful colors[1] to perfectly complement any home. It comes with a 20-year Limited Warranty[2], including a 5-year Full Start Period, to underscore its lasting performance.

Tam-Rail®. Strength and beauty in every detail.

With its patented triple-layer construction, the Tam-Rail® Railing System offers excellent strength in a product that is light in weight, providing outstanding durability. In addition to its three strong layers, the Tam-Rail System now offers three attractive color options. It has also been enhanced with new design details, such as improved bracket and post mount construction, for even better performance. The system comes with a 25-year Limited Warranty, including a 5-year Full Start Period.

1 Before making your purchase, view several full-length boards. Representation of these colors is as accurate as modern technology will permit. As with any composite product, color variations will occur. View several full-length pieces of material prior to final color selection and installation. Colors will usually weather to a lighter shade within the first several months of exposure to the environment. Color selection may vary across profiles.

2 To obtain a copy of the Limited Warranty, the most current version of this brochure, the product installation instructions and care and cleaning instructions, visit tamko.com or call 1-800-641-4691.
